

# nippies®

product info, actual sizes, shapes and directions

Open a fashion magazine and you will see breasts.

Naked breasts, small breasts, big breasts, sagging breasts, enhanced breasts. Whatever size or shape they are in, showing off what nature gave us is 'haute'. Yet all the strapless, deep V, cut to the navel, off the shoulder, sheer, mesh, lace and pieced together styles can make wearing a bra unfashionable and basically impossible. Besides, being free feels good! It's refreshing to see a woman revealing a natural cleavage line in her designer dress, especially when it isn't plumped to perfection. Finally going 'au naturel' is in fashion again. Yet at times, showing everything can be a little too revealing. Cover ups like band-aids and tape can be a turn off. We want to wear something fun, something funky, something a little sexy. We hope you do too. Undercover or exposed, Nipples are a patch of freedom you won't want to hide.

## Directions + Info

**BEFORE WEARING NIPPIES:** Please use the enclosed 'mini-nippie' patch test. Place on your torso/chest area and wear for 6 hours to test for any adhesive sensitivities or reactions.

1. Clean and dry skin.
2. Stand in front of a mirror
3. Peel of bottom half of the liner
4. In front of a mirror, stick the bottom half of the Nippie on the lower part of your breast.
5. Peel off the top half of the liner.
6. Pull Nippie over your nipple, pulling up gently for a little lift. (Be careful not to stretch Nippie out of shape.)
7. Press on

**REMOVE** gently. Be careful not to pull skin. Do not rip off.

### HINTS:

Try not to touch the adhesive. If you don't get it on right the first time, remove and reposition immediately. It may not stick again so apply with care. Nippies are designed for one time use, but if you want a second chance...after removing, stick on a clean dry surface like a mirror. When you are ready to try again, put them on and hold your hand over the Nippies for a few minutes to create heat. Warming them up can help create a new bond. If it doesn't work, try another pair!

each Nippies pack contains...

2 pairs of Nippies

in the same shape and size but in different colors and patterns. See our product page (p.5) or visit our website [bristols6.com](http://bristols6.com) to view our styles.

2 mini-Nippies

4 nipple pads

**READ THIS:** Nippies are sticky and made to stay on through a night of dancing, sweating and whatever else. Wear for 6 to 8 hours max. We use the safest, hypo-allergenic medical adhesives on the market, but anyone can be sensitive to even the best medical adhesives and have irritations. If you have adhesive sensitivity, your skin may develop irritation, rashes or blisters. Darker pigmented skins may lighten or discolor when using adhesives.

**DO NOT USE** this product on sensitive skin, open cuts, skin disorders, sun-burned skin or if you have skin depigmentation, such as white patches or a family history of skin depigmentation. Discontinue use if you have irritation.

## Star + Cross

ACTUAL SIZES

Cut out samples to see what  
Nippie size is right for you!

The larger sizes work best with B-D cups.  
This size can also provide lift for B and C  
cups if you apply on the bottom of the breast  
first and gently lift as you stick. Smaller sizes  
work best with A and B cups. This size looks  
great on a smaller breast.
